### Section I

#### Special Issue

#### Maker Spaces in Engineering Education

#### Guest Editor

**Pao-Nan Chou – Northern Illinois University, USA & National  
University of Tainan, Taiwan**

<b>Ahmad Ibrahim</b>	1133	Editorial
<b>Pao-Nan Chou</b>	1134–1135	Guest Editorial: Maker Spaces in Engineering Education
<b>Chih-chao Chung, Cheng-Lung Tsai, Yuh-Ming Cheng and Shi-Jer Lou</b>	1136–1150	Action Research on Integrating Maker Spirit and Maker Space for the Special Topic Courses of Engineering Students in Vocational High Schools
<b>Dámari Melián, José Luis Saorín, Jorge de la Torre Cantero and Vicente López-Chao</b>	1151–1160	Analysis of the Factorial Structure of Graphic Creativity of Engineering Students through Digital Manufacturing Techniques
<b>Barış Doğan, Buket Doğan, Eyup Emre Ulku, Anil Bas and Hasan Erdal</b>	1161–1169	The Role of the Maker Movement in Engineering Education: Student Views on Key Issues of Makerspace Environment
<b>Hannah D. Budinoff and Sara McMains</b>	1170–1183	Improving Outcomes and Participation in the Prototyping Process Using Design-for-Additive-Manufacturing Training
<b>Gordon D. Hoople, Joel Alejandro Mejia, Diane Hoffoss and Satyan L. Devadoss</b>	1184–1195	Makerspaces on the Continuum: Examining Undergraduate Student Learning in Formal and Informal Settings
<b>Cindy Lenhart, Jana Bouwma-Gearhart, Idalis Villanueva, Kate Youmans and Louis S. Nadelson</b>	1196–1207	Engineering Faculty Members' Perceptions of University Makerspaces: Potential Affordances for Curriculum, Instructional Practices, and Student Learning
<b>Lei Jiang, Lingxia Gao, Qingchun Wang, Yunli Gao and Feng Shi</b>	1208–1219	The CDIO-based Maker Space Framework: Application with Engineering Management Students
<b>Nikolaos Kalogeropoulos, Pierre Walker, Colin Hale, Klaus Hellgardt, Andrew Macey, Umang V. Shah and Marsha P. Maraj</b>	1220–1233	Facilitating Independent Learning: Student Perspectives on the Value of Student-Led Maker Spaces in Engineering Education
<b>Matthew A. Wettergreen, Ann Saterbak, Amy J. Kavalewitz, Alex M. Nunez- Thompson, Veronica Leautaud, Theresa Mkandawire, Matthew Petney, Carlos A. Dos Santos and Z. Maria Oden</b>	1234–1251	Makerspaces in Low-, Middle-, and High-Income Countries to Support Student Development of Engineering Design Skills
<b>Mohamed Jalal and Hanan Anis</b>	1252–1270	The Integration of a Maker Program into Engineering Design Courses
<b>Satesh Namasivayam, Mohammad Hosseini Fouladi, Sivakumar Sivanesan and Se Yong Eh Noum</b>	1271–1279	The Role of Makerspaces in Enhancing the Student Learning Experience
<b>Cheng-Lung Tsai, Chih-chao Chung, Ming-Hsiu Liu and Shi-Jer Lou</b>	1280–1294	The Effect of Positive Instruction on a Maker Project in a Vocational High School
<b>Xaver Neumeyer and Susana C. Santos</b>	1295–1301	Makerspaces as Learning Sites at the Intersection of Engineering and Entrepreneurship Education

### Section II

#### Contributions in: Transport Engineering, Global Learning, Institutional Data, Transnational Education, Academic Success, PBL, Inverted Classroom, Socialization Process, Software Testing, STEAM

<b>E. Diez-Jimenez, C. Gomez-Huelamo, M. J. Gómez-García, and I. Valiente-Blanco</b>	1302–1311	Practical Approach for Teaching Vehicle Design to Engineering Undergraduates
<b>Kerry L. Meyers and Mark J. McCready</b>	1312–1320	The Benefits of Short-Term Study Abroad Programs for Engineering Students
<b>Marisa K. Orr, Matthew W. Ohland, Susan M. Lord and Richard A. Layton</b>	1321–1332	Comparing the Multiple-Institution Database for Investigating Engineering Longitudinal Development with a National Dataset from the United States

<b>Rami Ghannam, Sajjad Hussain, Qammer H. Abbasi and Muhammad Ali Imran</b>	1333–1339	Remote Supervision of Engineering Undergraduates in a Transnational Programme between Scotland and China
<b>Kyle M. Whitcomb, Z. Yasemin Kalender, Timothy J. Nokes-Malach, Christian D. Schunn and Chandrlekha Singh</b>	1340–1355	Engineering Students' Performance in Foundational Courses as a Predictor of Future Academic Success
<b>Xiangyun Du, Claus M. Spliid, Anette Kolmos, Niels E. R. Lyngdorf and Youjin Ruan</b>	1356–1371	Development of Critical Reflection for Transformative Learning of Engineering Educators in a PBL-Based Professional Learning Program
<b>Blerta Prevalla Etemi and Huseyin Uzunboylu</b>	1372–1382	The Effects of Flipped Learning Method on Students' Perception and Learning of Java Programming
<b>Emma Brennan-Wydra, Joanna M. Millunchick, Trevion S. Henderson, Aaron W. Johnson and Cynthia Finelli</b>	1383–1395	Investigating the Adaptation of Socialization Processes Scales in Engineering Education Context
<b>Tonći Dadić, Vlado Glavinić and Marko Rosić</b>	1396–1410	Automated Software Testing Based on Semantic Distance
<b>Swapnil Sinha, Kelsey Rieger, Aaron D. Knochel and Nicholas A. Meisel</b>	1411–1427	The Impact of a Mobile 3D Printing and Making Platform on Student Awareness and Engagement
	1428	Guide for Authors
