

Contents

Contributions in: Social Capital, Workforce, Technological Knowledge, Active Learning, Project-Based Learning, Gender, Career Goals, Global Competencies, Multinational Design Projects, Concept Maps, E-Learning, Academic Dishonesty, Outreach, Mechatronics, Mathematics, Hydraulics, Parallel Computing, Fluid Mechanics, Chemical Engineering, Robotics, Nanotechnology, Industrial Engineering

Ahmad Ibrahim	1169	Editorial
Julie P. Martin	1170–1181	The Invisible Hand of Social Capital: Narratives of First Generation College Students in Engineering
Abe Zeid, Chitra Javdeka, Marina Bogard, Susan Steiger-Escobar, Shamsi Moussavi, Claire Duggan, Daniel Sullivan and Sagar Kamarthi	1182–1190	TRANSFORM: TRANSFORMing Liberal Arts Careers to Meet Demand for Advanced Manufacturing Workforce
Omer Deperlioglu and Bahadir Ozkan	1191–1199	The Relation between Self-Confidence of Engineering Undergraduates and Knowledge of Technology
Nathaniel J. Hunsu, Baba Abdul, Bernard J Van Wie, Olusola Adesope and Gary R. Brown	1200–1213	Exploring Students' Perceptions of an Innovative Active Learning Paradigm in a Fluid Mechanics and Heat Transfer Course
Kerry Meyers and Kathleen Cripe	1214–1225	Prior Educational Experience and Gender Influences on Perceptions of a First-Year Engineering Design Project
Katherine E. Winters and Holly M. Matusovich	1226–1238	Career Goals and Actions of Early Career Engineering Graduates
Scott C. Streiner, Anita R. Vila-Parrish and Gregg M. Warnick	1239–1254	An Exploratory Study of Global Competencies Considered by Multinational Companies: A Hiring Perspective
I. E. Esparragoza, S. Lascano Farak, J. R. Ocampo, J. Nuñez Segovia, R. Viganò, J. Duque-Rivera and C. A. Rodriguez	1255–1269	Assessment of Students' Interactions in Multinational Collaborative Design Projects
Cigdem Turhan, Gokhan Sengul and Murat Koyuncu	1270–1281	A Comprehensive Assessment Plan for Accreditation in Engineering Education: A Case Study in Turkey
Wen-Jye Shyr, Chi-Feng Feng, Chia-Ming Lin and Hui-Chuan Wu	1282–1287	Development and Assessment of Wireless Touch Control Technique for Learning Mechatronics
Joanna F. DeFranco, Kathryn Jablowski, Michael J. Piovoso and Sally S. Richmond	1288–1298	Objectively Assessing Concept Maps for Knowledge Integration
Ainara Pradera-Mallabiarrena, Inaki Merideno, Aitziber Lopez-Arancibia and Raúl Antón	1299–1308	Multiple Approach Experimental Project for Engaging Students in Learning: Implementation and Assessment
Javier Echávarri, Eduardo de la Guerra, Andrés Díaz, Enrique Chacón, José Luis Muñoz and Juan Manuel Munoz-Guijosa	1309–1320	The Role of Computer-Assisted Self-Assessment in Courses with a Large Enrollment
Dennis V De Pellegrin and Catherine P Sweeney	1321–1333	Teaching Engineering Tribology: Elements of Assessment Design for Different Learning Styles
Sami W. Tabsh, Hany A. El-Kadi and Akmal S. Abdelfatah	1334–1342	Past and Present Engineering Students' Views on Academic Dishonesty at a Middle-Eastern University
Natalija Stojanovic and Emina Milovanovic	1343–1351	Teaching Introductory Parallel Computing Course with Hands-On Experience
Kyle F. Trenshaw, Marina Miletic, Joseph W. Schlude, Ayesha S. Tillman, Troy J. Vogel, Jerrod A. Henderson and Edmund G. Seebauer	1352–1375	Chemical Engineering Design Projects Across the Curriculum at a Large Research-Intensive Public University
Igor M. Verner and Sergei Gamer	1376–1388	Robotics Laboratory Classes for Spatial Training of Novice Engineering Students
Yi-Lin Liu, Hsiu-Ping Yueh, Tzy-Ling Chen and Horn-Jiunn Sheen	1389–1397	Identifying Nanotechnology Professional Competencies for Engineering Students Using Q Methodology
Yu-Liang (Aldy) Chang	1398–1409	Using Mechatronics Curriculum Design in Enhancing Vocational High-School Students' Competence in Scientific Inquiry
Hisham Alidrisi	1410–1418	Development of a Study Plan for Industrial Engineering Program Using Interpretive Structural Modeling Technique
Mónica F. Bugallo, Angela M. Kelly and Minsu Ha	1419–1427	Impact of a University-Based Electrical and Computer Engineering Summer Program for High School Students
	1428	Guide for Authors
