

Contents

Contributions in: Engineering Writing, Reference Management, Design-Based Learning, First Year Students, Doctoral Students, Education Research, Academic Misconduct, Internet of Things, Innovation, Sustainability, Career Choices, Design Thinking, ChatGPT, Big Data, Immersive Technologies, Online Teaching, Environmental Awareness, Leadership, Interdisciplinarity, Engineering Identity Sustainable Development Goals, Mentorship

Editorial	703
<i>Ahmad Ibrahim</i>	
Integrating an Expanded Set of Reference Types into Engineering Writing	704–714
<i>Thomas K. Gaylord, Sushant Guha and O. Joseph Ibiyemi</i>	
Exploring High School Engineering Students' Integration of Biological Concepts in the Engineering Design Process	715–732
<i>Abeera P. Rehmat, Meltem Alemdar, Michael E. Helms, Roxanne Moore and Marc J. Weissburg</i>	
The Impact of Different Levels of Cognitive Questions in Examination Papers on the Final Grades of First-year Electrical Engineering Students	733–740
<i>Arthur James Swart and Danri Delpont</i>	
Assessing Engineering Doctoral Students' Experiences in Chinese Institutions	741–756
<i>Xiaoqing Xu, Guandong Song and Ying Yang</i>	
Conjecture Maps as a Cognitive Tool for Connecting Engineering Education Research and Practice	757–775
<i>Alejandra J. Magana</i>	
Assessment of the Effect of Attitudes of Information Engineering Students on Academic Misconduct	776–787
<i>Liu Xin Juan and Zhang Bin</i>	
An OBE-CDIO Closed-loop Teaching Model to Advance the Quality of Instruction in an Internet of Things Program	788–800
<i>Jiawen Li, Xinyu Wu, Xindi Zhang, Qiong Nie, Min Yang, Qiqiao Li, Huimin Zhao, Jinchang Ren and Rongjun Chen</i>	
A Digital Tool for Scaffolding Innovation Learning in Engineering Education with Local Industry Needs	801–814
<i>Kamila Kumrath, Serena Leka, Lasse Steenbock Vestergaard, Mirko Presser and Devarajan Ramanujan</i>	
Exploring the Academic Paths and Professional Aspirations of GenZ STEM Students in the Canary Islands	815–832
<i>C. Sierra, C. Boente, R. Baelo, L. Estévez and E. Rosales-Asensio</i>	
How Inclusiveness of Learning Environment Mediates the Evolution of Engineering Students' Motivational Beliefs in a Two-Semester Introductory Physics Course Sequence	833–850
<i>Yangqiuting Li and Chandralekha Singh</i>	
The Impact of Design Thinking, Maker Education, and Project-Based Learning on Self-Efficacy of Engineering Undergraduates	851–862
<i>Patricia Santos, Miriam Calvera-Isabal, Amaia Rodriguez and Khadija El Aadmi</i>	
Evaluating the Impact of ChatGPT on Programming Learning Outcomes in a Big Data Course	863–872
<i>Patricia Callejo, Carlos Alario-Hoyos and Carlos Delgado-Kloos</i>	
Investigating the Impact of Learners' Time Allocation in Immersive Simulation-Based Learning Environments	873–887
<i>Mahgol Nowparvar, Noah Soriano, Sabahattin G. Ozden, Parhum Delgoshaei, Omar Ashour and Ashkan Negahban</i>	
Investigating Challenges and Strategies of Online Teaching Among Taiwan's Electronics and Electrical Engineering Instructors	888–915
<i>Chin-Wen Liao, Kai-Chao Yao, Sheng-Chieh Nien, Chun-Chung Liao, Hui-Ching Nien, Wei-Lun Huang, Yu-Chien Shih, Wei-Sho Ho, Ying-Ju Tseng and Yu-Yuan Ko</i>	
Utilizing IoT Systems to Improve Students Digital Competency and Awareness of Environmental Issues	916–928
<i>A. Leo-Ramírez, J. Álvarez and C. Gilarranz-Casado</i>	
Leadership in Interdisciplinary Engineering Students' Projects: A Faculty Perspective for Supporting the Development of Student Leadership	929–947
<i>Henrik Worm Routhé, Jette Egelund Holgaard and Anette Kolmos</i>	
Analysis of A Systematic Literature Review of Engineering Identity Research (2005–2019)	948–964
<i>Shawna Fletcher and Kristi J. Shryock</i>	

Bridging Sustainability and Physics: Fostering Inclusion and Awareness of SDGs in Engineering Curriculum	965–978
<i>Daniel Tarrazó-Serrano, César González-Pavón, Sergio Castiñeira-Ibáñez, Patricia Arizo-García, Antonio Uris and Constanza Rubio</i>	
Fostering Soft Skills through Cross-disciplinary Robotics Mentorship	979–992
<i>Wenyen Huang, Ping-Chuan Wang, Graham Werner and Scot Sutherland</i>	
Book Review	993–995
Having A Teaching Mentor on Your Bookshelf – A Review of <i>Teaching and Learning STEM: A Practical Guide</i> (second edition)	
<i>Milo D. Koretsky & Lorena S. Grundy</i>	
Guide for Authors	996
